

The South African Roll Users Conference (SARUC) is a forum for the exchange of knowledge in the metal and allied industries with the aim of improving quality, productivity, cost of production and technical expertise. It will allow delegates the opportunity to meet fellow users as well as local and international suppliers of equipment, consumables and services.

News Letter 3 – SARUC 2011

July 2011

Dear Friends of SARUC

*With the conference only three months from now the excitement for the upcoming SARUC conference on the 6 and 7 October 2011 is building up as arrangements and technical papers are in the finalisation phase. The committee cannot wait to see old acquaintances and meet new people during this conference. The venue is the Quest Conference Estate, Vanderbijlpark, South Africa. (Previously Emfuleni Conference Centre - same venue as SARUC 2006). **See attached map and GPS coordinates***

The South African Roll Users Conference (SARUC) is a forum for the exchange of knowledge in the metal and allied industries with the aim of improving quality, productivity, cost of production and technical expertise. It will allow delegates the opportunity to meet fellow users as well as local and international suppliers of equipment, consumables and services.

We are committed in presenting a conference which will once again exceed expectations of the delegates through excellent technical papers, exhibitions as well as the most enjoyable socializing. With what we offer, we are sure your company will gain valuable knowledge and give you a competitive edge by continuously improving products and productivity to ensure lower cost of production.

Time is running out for companies to advertise in our prestigious publication – copies of which will be available to all delegates at the end of the conference. Delegate bookings can also be made to ensure no time delays during the registration process. There will be representation from the leaders in the roll users industry: Arcelormittal, Evraz Highveld Steel and Vanadium, Columbus Stainless (Pty) Ltd, Hulamin and, Scaw Metals to name just a few.

On the SARUC website: www.SARUC.com you will find all you need to know about SARUC - including activities - a comprehensive e-mail address list of roll users and manufacturers – how to take part in this prestigious event – accommodation recommendations should you be interested – and much more! You will also receive regular updates of the progress made by the organising committee once you register, free of charge, on our data base. At the same time, should you no longer wish to receive this information, kindly reply with a short request to be removed from the communication list. Kindly remember to inform us of any amendments to your contact information, including your designation, so we can ensure our records are up to date. Furthermore, please feel free to send us contact details of anyone you think may be interested in receiving information concerning SARUC.

Technical papers

We are finalizing our program and are proud to say that we will have excellent technical papers covering various aspects, ranging from cost saving initiatives, product quality, mill roll developments, production process, maintenance, environmental aspects, roll maintenance, roll inspection and control systems.

Advertisements in the **SARUC publication** and hiring of exhibition stands at the conference not only provides much needed revenue for financing the event, but also gives you an opportunity to display and promote products and services to a selected audience. Space is limited, so please book early to avoid disappointment. Latest date at which orders and approved material for adverts can be accepted is **29 July 2011**. Copies of order forms are attached to this newsletter.

Every effort has been made to keep delegate fees, exhibition and advert fees as low as possible to maximize participation at SARUC 2011 – which promises to be another memorable occasion. **See attached relevant booking forms as well as the exhibition stand lay-out at Quest Conference Estate.**

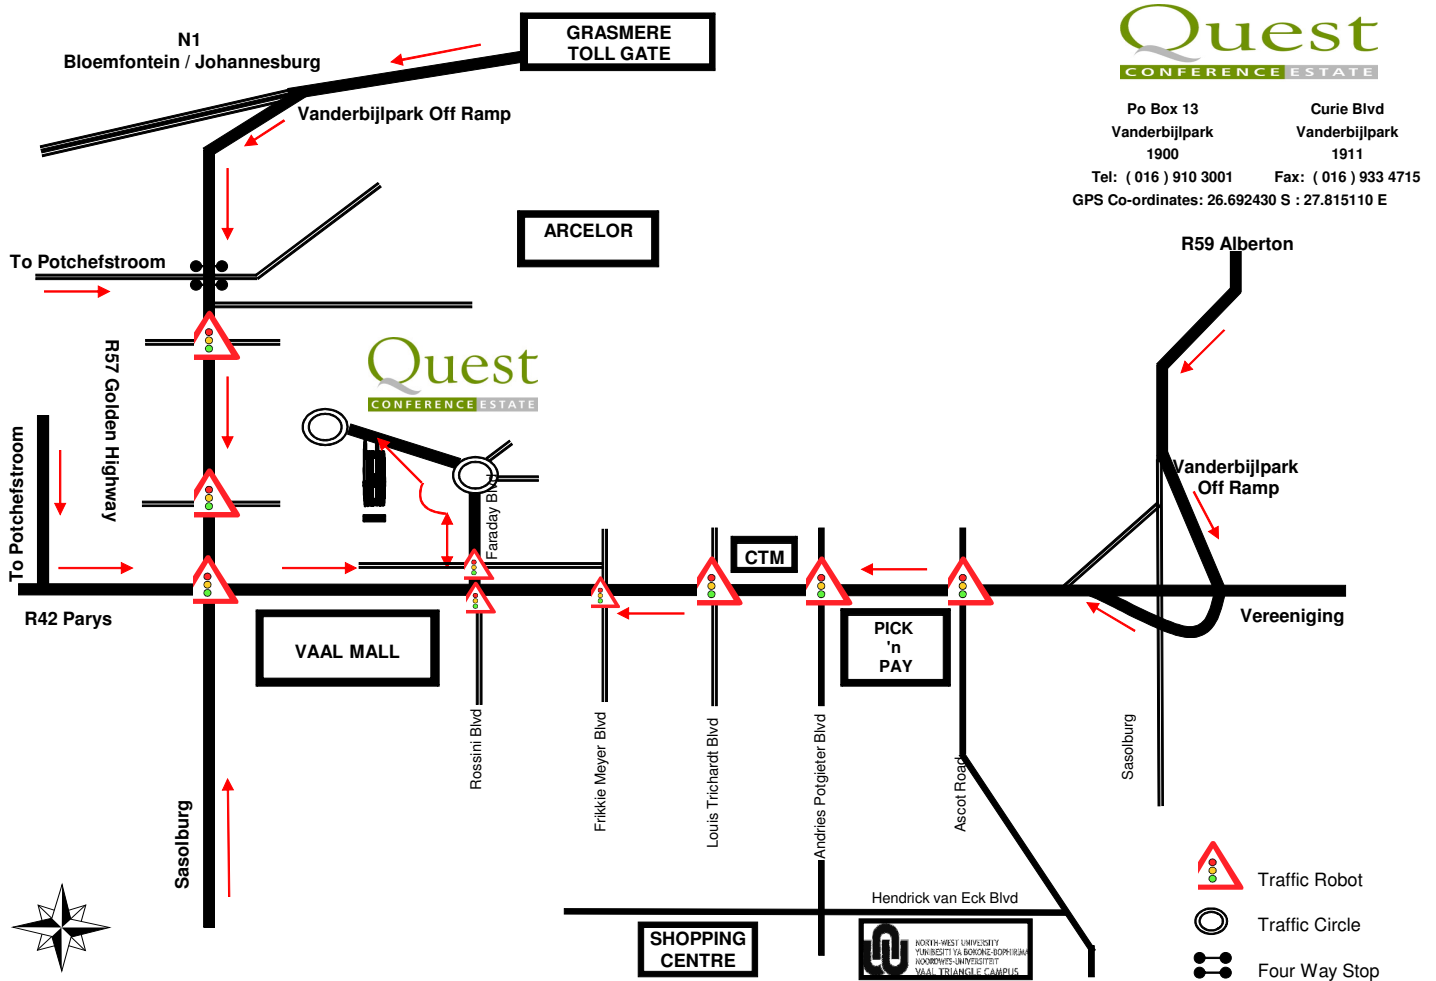

Details of bookings, fees, advertisements, order forms, etc. can also be obtained from either Theresa Davies, or any committee member.

SARUC serves the steel and associated industries

We are looking forward to meeting old acquaintances and forging new friendships at **SARUC 2011**.

A handwritten signature in black ink, reading 'Derick Terblanche'.

Derick Terblanche
Chairman of SARUC committee
