

The South African Roll Users Conference (SARUC) is a forum for the exchange of knowledge in the metal and allied industries with the aim of improving quality, productivity, cost of production and technical expertise. It will allow delegates the opportunity to meet fellow users as well as local and international suppliers of equipment, consumables and services.

News Letter 3 – SARUC 2014

February 2014

Dear Friends of SARUC

The next conference is scheduled for **23 and 24 October 2014**.

At www.SARUC.com you will find all you need to know about SARUC. **Should you no longer wish to receive SARUC information, kindly reply with a short request to be removed from the distribution list to Henriehet.brooks@arcelormittal.com**

Kindly remember to inform us of any amendments to your contact information to update our records. You could also introduce us to any interested party.

Call for technical papers

We have not received a good response on our call for papers, but would like to thank those few who have sent us a synopsis and or technical paper. We urgently request anyone who would like to do a presentation at SARUC 2014 to send us a copy of the technical paper in a Word format as per attached guidelines for papers before or on 20 March 2014 for our consideration. As committee we will, as always, try our best to ensure the presentations are interesting and adds value for the delegates and the industry as a whole. We also use the feedback received from delegates during *SARUC 2011* to improve our efforts in selecting papers that would meet expectations of delegates. If the author will not be presenting the paper, we will require details of the presenter before a final decision is made. Suitable papers to cover various topics will be chosen.

Please send your technical papers to Henriehet Brooks, Henriehet.brooks@arcelormittal.com on or before **20th March 2014**

Please see attached "Call for papers letter" for more detail.

Advertisements in the **SARUC publication** and hiring of exhibition stands at the conference not only provides much needed revenue for financing the event, but also gives you an opportunity to display and promote products and services to a selected audience. Space is limited, so please book early to avoid disappointment. Kindly contact Henriehet Brooks or any committee member to obtain order forms and banking details – all of which will be available on the web site soon.

Every effort will be made to keep delegate fees as low as possible to maximize participation at SARUC 2014 which promises to be another memorable occasion.

Details of bookings, fees, advertisements and order forms can also be obtained from either Henriehet Brooks, or from any of the committee members should you need any assistance.

SARUC serves the steel and associated industries.

We are looking forward to meeting old acquaintances and forging new friendships at **SARUC 2014**.

Derick Terblanche
Chairman of SARUC committee

The South African Roll Users Conference (SARUC) is a forum for the exchange of knowledge in the metal and allied industries with the aim of improving quality, productivity, cost of production and technical expertise. It will allow delegates the opportunity to meet fellow users as well as local and international suppliers of equipment, consumables and services.

SARUC 2014 - CALL FOR PAPERS

We hereby request any interested person or company to submit a technical paper by **20 March 2014** for possible inclusion for SARUC 2014

Next conference: **23 and 24 October 2014**

Possible venue: **Quest Conference Center, Vanderbijlpark, South Africa**

DURATION OF PRESENTATION:

Not shorter than 10 minutes

Not longer than 20 minutes (*Presentation time excludes question time of approximately 5 minutes*).

PRESENTATION METHOD

Personal, speaker to delegates assisted by computer generated graphics, projected onto large screen using PowerPoint.

Requirement for this call of paper

A synopsis not exceeding 350 words, which may be accompanied with graphics, is required to adjudicate the suitability of the paper to be presented at the next conference.

TOPICS

Judging by delegate feedback from past conferences possible topics are as follows:

1. Roll manufacturing - New developments and roll grades
2. Roll failures - Reasons and preventative actions
3. Welding of rolls - New developments
4. Rolling mill equipment and accessories - New developments and lessons learned
5. Defects on final products (steel, aluminium, copper, brass etc) - Reasons and remedies
6. Roll shop developments to improve efficiency
7. Maintenance related topics
8. Roll performance measurement
9. Roll cooling
10. Mill optimisation and cost savings initiatives
11. Continuous caster rolls and maintenance
12. Process rolls and maintenance thereof

SUBMISSION OF SYNOPSIS

Please complete the attachment and e-mail to Henriehet.brooks@arcelormittal.com together with a copy of the technical paper at your very earliest convenience, **but not later than 20 March 2014**.

ADJUDICATION

- Synopsis will be judged on merit, authors will be advised of possible selection or otherwise in due course.
- Authors of synopsis who come up for possible selection will be invited to provide a draft paper. Such draft paper will be judged by the committee for presentation or otherwise of which decision, authors will be advised.

The South African Roll Users Conference (SARUC) is a forum for the exchange of knowledge in the metal and allied industries with the aim of improving quality, productivity, cost of production and technical expertise. It will allow delegates the opportunity to meet fellow users as well as local and international suppliers of equipment, consumables and services.

SUCCESSFUL SUBMISSIONS

Guidelines for presentation of papers will be submitted to authors requested to provide draft submissions.
